8. The Serial number and activation code will be displayed on your screen. You will need to enter this information into the "Entrust IdentityGuard Mobile" app on your phone.

Soft Token

Enter the name, serial number, and activation code provided here into the Entrust App.

Token Name

Kayla's Token

Serial Number

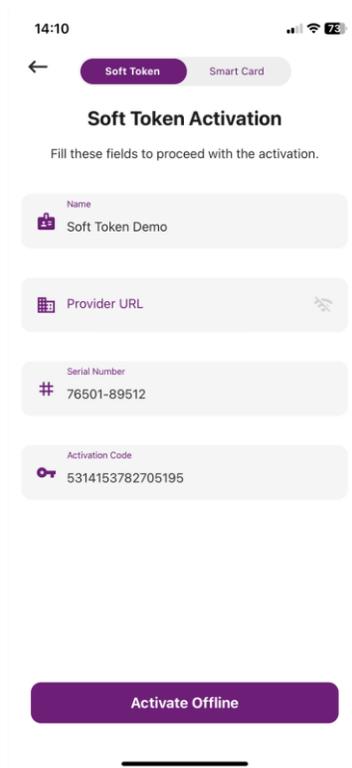

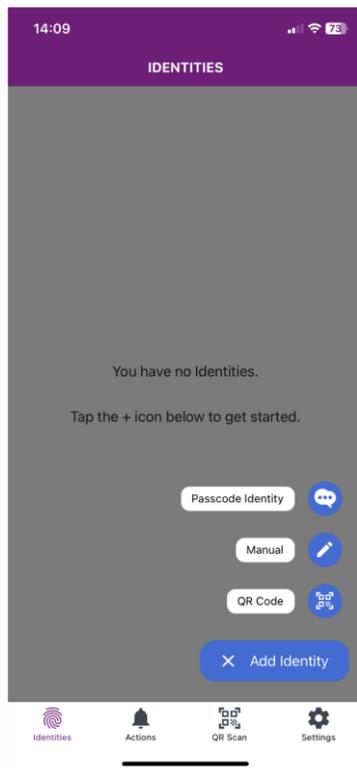

25955-91914

Activation Code

9332-3173-6969-4151

9. Navigate back to the Entrust IdentityGuard Mobile app on your phone:

1. Click the blue plus sign on the bottom right of the app
2. Select "Manual" option within Identities.
3. Enter your token name under "Name"
4. Leave Provider URL blank
5. Enter the serial number and activation displayed on your screen on the Mascoma Bank website
6. Click the purple checkmark to move forward

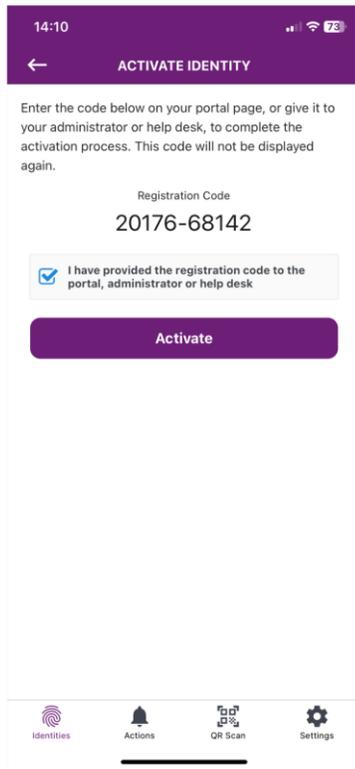

10. On the following screen in the app:

Do NOT select the Activate option yet as the Registration Code needs to be entered into your computer screen.

a. Enter the Registration Code displayed in your mobile app into the digital banking screen.

Soft Token

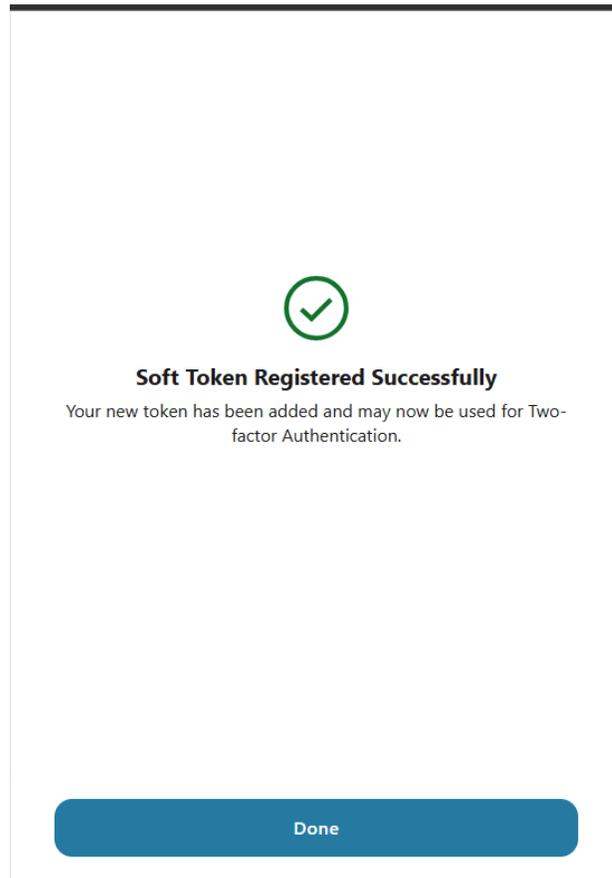

Enter the registration code from the Entrust Identity app to register this soft token.

Registration Code
20176-68142

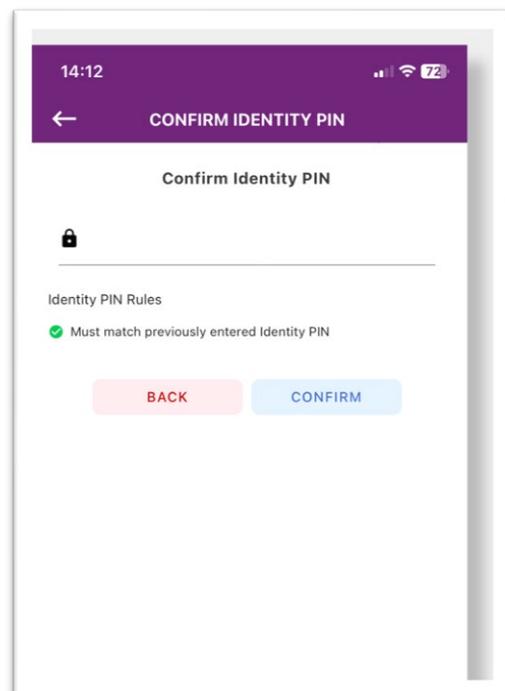

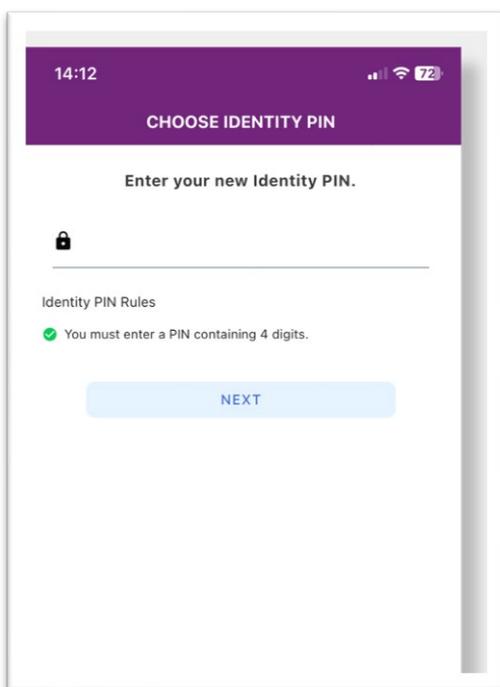

b. Click “Next” on your computer screen

c. In the mobile app check the box to confirm you have entered the registration code on your computer. Then hit “Activate” on your mobile device.

11. The computer will prompt you to enter a verification code. Click “send code” then Enter the verification code that was sent to email or by text message. Click Verify. You should then receive the below “success” message

12. On the Entrust IdentityGuard App, enter and confirm a 4 digit PIN number of your choice.

Using your Entrust IdentityGuard Security Token

13. When accessing your Entrust IdentityGuard App to receive a security token, you will need to select Verify and enter your 4-digit PIN number to confirm your identity.

14. Your Token Code will then appear and can be entered into the multi-factor authentication box on your computer screen.
